

WeatherMaster™

This high quality, weather-resistant, through-the-wall cash-dispenser is designed in sleek stainless steel to look like a standard bank ATM.

For the ultimate in safety and security, the WeatherMaster™ is fully rear-accessible so all management functions can be handled with ease from the rear. Its dual-bracket mounting system provides for ease of installation, without a stand for support.

The WeatherMaster™ through-the-wall ATM is ideal for capitalizing on unused wall or window space and outdoor traffic. Generate new revenue with a walk-up or drive-up ATM 24 hours a day, seven days a week.

Qualtex™
